

**CEMİL TUNÇ (Prof. Dr.)**

**Full Address:**

Department of Mathematics  
Faculty of Sciences  
Van Yuzuncu Yil University  
65080, Van, Turkey

E-mail: [cemiltunc@yyu.edu.tr](mailto:cemiltunc@yyu.edu.tr)

[cemtunc@yahoo.com](mailto:cemtunc@yahoo.com)

[tunccemil@gmail.com](mailto:tunccemil@gmail.com)

Website: [www.yyu.edu.tr](http://www.yyu.edu.tr)

**Education:**

**PhD**, Institute of Science, Erciyes University,  
(Dissertation Title: Some stability and boundedness results for two class of certain differential equations of fourth order), 1993, Kayseri, TURKEY.

**MS**, Institute of Science, Erciyes University, (Masters Thesis Title: On the stability of solutions of ordinary differential equations), 1990, Kayseri, TURKEY.

**BS**, Department of Mathematics, Faculty of Sciences  
Atatürk University, 1982, Erzurum, TURKEY.

**Experience:**

Head of Department of Mathematics, 2007-Present

Dean of Faculty of Sciences, May 2011-August 2017.

Deputy Dean of Faculty of Sciences, September 2017-Present

Visiting Professor, University of Tennessee, Chattanooga, USA, June 2013-September 2013.

Visiting Professor, Jiaying University, Jiaying, PR China, December 2015-January 2016.

**Research Interests:**

Stability, instability, boundedness, asymptotic behaviors, oscillation, non-oscillation of solutions, periodic solutions, almost periodic solutions, pseudo almost periodic solutions, degree theory, fixed point theory, population dynamics, Lyapunov functions, Lyapunov functionals, qualitative properties Ordinary Differential Equations, Functional Differential Equations, Fractional Differential Equations, Partially Differential Equations, Integro-Differential Equations, Functional Integro-Differential Equations, Integral Equations, Functional Integral Equations.

**Publications:**

### **Conference Proceedings:**

[32] Tunc, C. , Pseudo almost periodic solutions for functional differential equations of first order. 4th International Conference on Mathematics & Information Science (ICMIS 2015), Zewail City of Science and Technology, Cairo-Egypt, 5-7 Feb. 2015.

[31] Tunc, C. , International Conference on Recent Advances in Applied Mathematics. December 17-18, Lahore-Pakistan.

[30] Tunc, C., On the stability and boundedness of solutions to Volterra integro-differential equations with delay. International Conference on Advancements in Mathematical Sciences

(AMS). 5-7 Kasım, 2015, Antalya-Turkey.

[29] Tunc, C., 6th INTERNATIONAL CONFERENCE ON MODELING, SIMULATION AND APPLIED OPTIMIZATION. Dedicated to the memory of Late Ibrahim El-Sadek May 27 – 29, 2015 Yildiz Technical University, Istanbul, Turkey.

[28] Tunc, C. , Pseudo almost periodic solutions for functional differential equations of first order. 4th International Conference on Mathematics & Information Science (ICMIS 2015), Zewail City of Science and Technology, 5-7 Feb. 2015.

[27] Tunc, C. , On the Pseudo almost periodic solutions for HCNNs with time-varying leakage delays International Conference on Advances in Applied Mathematics ICAAM-2014 Hammamet, 22-25 December, 2014, Tunisia

[26] Tunc, C. , A comparison on the stability of a functional differential equation of second order by fixed point theory and Lyapunov theory. The Azerbaijan National Academy of Sciences, 13-18 Mayıs 2014, Baku, Azerbaijan.

[26] Tunc, C. , Fixed points and stability in nonlinear differential equations with variable delay. “3rd International Conference on Mathematics & Information Science”. December 28-30, 2013, Luxor-Egypt.

[25] Tunc,C., On the existence of periodic solutions of differential equations of higher order Workshop on Control Theory and Applications, 15-19 December, 2012, Mahdia-Tunis.

[24] Tunc, C., Stability and boundedness in multi delay vector Liénard equation. Algerian-Turkish International days on Mathematics 2012 ATIM’2012. University Badji Mokhtar Annaba, 9 - 11 October 2012, Annaba, Algeria.

[23] Tunc, C., On the Qualitative Behaviors of Solutions of Some Differential Equations with Deviating Argument, April 19, 2012, Centro de Matematica e Aplicacoes Fundamentais, University of Lisbon, PORTUGAL.

Tunc, C., Recent Advances on Qualitative Behaviours of Solutions of Some Differential Equations of Higher Order with Multiple Deviating Arguments, September 10-13, 2011, Sohag University, Sohag, Egypt.

[22] Tunc, C., On the boundedness and integrability of non-autonomous differential equations of second order with variable deviating arguments. 9th Colloquium on the Qualitative Theory of Differential Equations, June 28 - July 1, 2011, Szeged, Hungary. University of Szeged, Bolyai Institute.

[www.math.u-szeged.hu/9QTDE](http://www.math.u-szeged.hu/9QTDE)

[21] Tunc,C.,On the asymptotic stability of solutions of a class of neutral differential equations with deviating argument, Workshop on Nonlinear Analysis and Applications, December 16-19, 2010, Monastir-Tunis.

[20] Tunç, C., Stability, boundedness and uniform boundedness of solutions solutions of nonlinear delay differential equations, The 8th AIMS Conference on Dynamical Systems, Differential Equations and Applications, Dresden University of Technology, Dresden , Germany, May 25 - 28, 2010.

[19] Tunç, C., On the qualitative behaviors of solutions of Liénard type equations with multiple deviating arguments. International Conference on Analysis And Applications, January 24-26, 2010, Sultan Qaboos University, Muscat, Oman.

[18] Tunc,C. Stability, boundedness and uniform boundedness of solutions solutions of second order nonlinear differential equations, Workshop on Control Theory and Applications, November 19-22, 2009, Monastir-Tunis.

[17] Tunç, C., On the qualitative behavior of some delay differential equations of higher order, International Conference of Modeling, Simulation, and Applied Optimization (ICMSAO-09); January 20-22, 2009, American University of Sharjah , Sharjah, UAE.

[16] Tunç, C., Nonlinear analysis and Geometric PDE: CIMPA Summer School (Mathematics), June 15-24, 2008, Tsaghkadzor, Armenia.

[15] Tunç, C. Stability and boundedness of solutions to nonlinear delay differential equations, Conference on Equations Différentielles Ordinaires, 24-29 May 2008, Mostaganem, Algeria.

[14] Tunç, C. On the stability and boundedness of solutions of some nonlinear differential equations of fourth and fifth-order with delay, Fifth International Conference on Dynamic Systems and Applications, May 30 - June 2, 2007, Morehouse College, Atlanta, Georgia, USA.

[13] Tunç, C. On the stability of solutions to certain third and fourth-order delay differential equations, International Congress of Mathematicians, ICM, August 22-30, 2006, Madrid-SPAIN.

[12] Tunç, C. On the stability and boundedness of solutions to certain third-order delay differential equations, 37. Annual Iranian Mathematics Conference, Azarbaijan University, September 2-5, 2006, Tabriz-IRAN.

[11] Tunç, C.; Karakaş, B. (2005) About boundedness of solutions of nonlinear vector differential equations of third order, 14th Summer St. Petersburg Meeting in Mathematical Analysis, June 6-11, Euler International Mathematical Institute, St. Petersburg, RUSSIA.
